

REPORT NO.

## CD NO. A-78423

DATE DISTR. 20 Mar 51

NO. OF PAGES 2

NO. OF ENCLS.  
(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO.

1. Transmission has begun at the new radio station near Pancevo in the Ovca locality. The station is approximately four kilometers northwest of the Pancevo-Belgrade highway and south of Ovca village. Sixteen antennae, each 37 meters in height, have been constructed in four groups. Each group of four pylons was placed on a cement base at the top of a hill. The radio station rests on land appropriated for the Postanska Ekonomija Beograd (Belgrade Postal Economy) and is the site of their collective farms. Two kilometers from the antennae, toward the Pancevo-Belgrade highway, a one-story building has been constructed to house the technical installations for the radio station. It is reported that the scope and functioning of this station is under Ministry of Defense direction.
2. The jamming signal used by the station is a long whistle, possibly directed toward Moscow, Sofia, Bucharest and Budapest during the same transmittal hours as those of the Cominform stations, namely:
